Include your full text here. Remember to use APA 6th edition for formatting the embedded tables and figures. Please also use APA 6th edition formatting for both your in-text citations and reference list. While citation management programs are helpful, they are not perfect, please always check the reference information generated by these programs. Also, while some search engines offer “APA formatted” citations, these too are sometimes incomplete or incorrect.

**Heading Level 1**

Do start each paragraph with a tab to indent it, and use headings to clarify your argument. The text of your manuscript is to be double spaced.

**Heading Level 2**

Note that you can use the styles menu to aid in your formatting. The Journal of Educational Leadership and Policy Studies (JELPS) has embedded the styles required for formatting in this template.

*Heading Level 3*

For tables and figures please use the APA manual guidelines. Text within a figure or table may be spaced for readability and does not need to match the spacing here.

## References

Please use APA 6<sup>th</sup> edition for formatting your references. This includes digital object identifiers whenever available as well as live links to articles if appropriate.
