Language is the gateway to becoming a world citizen and understanding your own culture in new and exciting ways. In this age of increasing globalization, language and culture studies are vital to meet the challenges and opportunities for success in the expanding job market.

PROGRAM FEATURES

We offer courses that focus on language, culture, literature, business, medicine, linguistics, literacies, cinema, local, and world communities. With a degree in World Languages & Literatures you can communicate with native speakers, tutor students of various abilities, immerse yourself in literature, and view and discuss films from world-renowned directors. In our food-focused course, you will learn the meaning and history of specific dishes and ingredients, and different cultures across the globe, and you will cook and taste original foods of Italy, Argentina, Columbia, France, and many other countries. You will be guided through all your studies by our world-class dedicated faculty.

All our languages courses are built around concepts and promote transcultural and translingual understanding. Students in our Foreign Language Teacher Certification program experience teaching through after-school programs in local schools and student teaching placements in an accredited program. We offer our students opportunities to learn a nationally recognized certificate of proficiency and provide them with classes that help prepare them for this proficiency testing.
